Your eligibility for financial aid is determined using information provided on the Free Application for Federal Student Aid (FAFSA). We use the FAFSA to provide an equitable and consistent review for all students. The 2024-25 FAFSA calculation considers your 2022 income as a good indicator of the financial strength of your family.

We understand that students may experience financial changes that are not reflected on the FAFSA. If your 2023 or 2024 income is expected to be significantly less than that of 2022, complete the information listed below and provide all noted supporting documentation.

- Submit a signed copy of your 2022 and 2023 federal income tax return with W-2 forms
- Submit a written explanation of your change in income
